Wilson Is Guest of King George

U. S. ARMADA RETURNS TO HOME PORT FROM BIG VICTORIES

NEW YORK, Dec. 26.—In a skirling snowstorm the American fleet coming home from the war, passed through the narrows shortly after 9:30 a. m. today.

The Gloucester, a low flying airplane and two destroyers preceded the rest of the big dreadnaughts. The snowstorm created a condition of "low visibility" shrouding all but the nearest battle craft from the watchers who thronged the shores on both sides of the narrows.

Secretary Daniels reviewing ship, the Mayflower, dropped anchor off the Statue of Liberty at 9:30 a. m.

About the same time a police boat carrying the mayor and city officials started down to meet the fleet.

Battery Park was crowded. Spectators, despite the cutting wind, clustered on the roofs of skyscrapers and seized every point from which a glimpse of the homecoming fighting ships might be had.

The harbor swarmed with boats of all sizes. Several boats carried bands.

MANAGER BREWER DELAYS DEPARTURE

Manager C. M. Brewer, of the Western States Gas and Electric Co., who has been transferred to the management of the Mountain States Power Company with headquarters at Albany, Ore., and who expected to leave Richmond with his family for his new field of duty today, has delayed his departure until Sunday.

Manager Brewer received word from his chiefs in Chicago last night that they would not be able to meet him in the Oregon town until about the first of the year to turn affairs there over to him and he will remain here, for the time can be well employed in closing up his business affairs in this city.

SOLDIERS JOIN SAILORS IN MUTINOUS RIOTS IN BERLIN; REVOLUTIONARIES OVERPOWERED

LONDON, Dec. 26.—The mutinous sailors who had been holding out in the Red palace at Berlin, have hoisted the white flag, and have been allowed to leave under guard, according to advices from Berlin sent out by the Exchange Telegraph correspondent at Amsterdam. Government troops, the message adds, now occupy the palace and the royal stables.

LONDON, Dec. 26.—The Alexander and Franz regiments have openly joined the revolting sailors in Berlin, and it is predicted in advices sent from Berlin late Christmas night that nearly the entire Berlin garrison will support them, leaving the government without troops.

Nearly 100 persons were killed in the street fighting which began in Berlin on Tuesday morning according to the latest reports from the German capital, transmitted by the Exchange Telegraph correspondent at Copenhagen. The republican guards fired several times to take the royal stables and the headquarters of the revolting sailors, but were repulsed.

ALLIES REFUSE TO INTERVENE TO STRAIGHTEN RUSS TANGLE

PARIS, Dec. 26.—After several days of furious discussion of the subject in the press, it appears settled that there will be no military intervention in Russia this year — if ever.

Instead the Allies will sustain the moderate elements in Russia, hoping thus gradually to circumvent the Bolsheviks. As forecast in dispatches of last Friday, the peace conference will consult with a committee of former provisional Russian ministers, with the exception, however, of Professor Paul Miliukoff, ex-premier, whose sudden departure from Paris after a stay of only a few days, gives rise to much comment and speculation.

Deliberations are now held daily at the Russian embassy between

Russians who were ambassadors or ministers under the Kerensky and preceding regimes. M. Bakmeteff the provisional government's ambassador at Washington, and Prince Lvoff, who was the first premier of the Russian republic, are among those holding conferences. Several other leading Russian bourgeois opposed to the Bolsheviks are reported en route to Paris.

The Allies propose, it is announced, to sustain the various regional governments set up in opposition to the Bolsheviks, such as the government at Archangel, Omsk and other districts. It is further planned to organize the states immediately adjoining Russia, which are opposed to Bolshevism, such as Finland, the Ukraine and perhaps Lithuania.

PERSHING WILL CHECK DRINK HABIT

PARIS, Dec. 26.—General Pershing has issued an order to all American commanders to cooperate fully with the French government in measures against excessive use of alcoholic liquors. The French army rules regarding the drinking of spirits and liquors and the opening of liquor shops to soldiers, he says, will be observed strictly by the American forces.

FINE WEATHER IS FEATURE OF DAY ON CHRISTMAS

Richmond observer Christmas in the good old-fashioned manner yesterday. Many of the churches held services and after attending them the people went to their homes and after enjoying their Christmas dinners, the day was spent with family reunions and entertaining friends and relatives.

Never in the history of this city were better weather conditions on Christmas than yesterday. The day dawned clear and cool, but with scarcely any wind, and toward noon the air was warm and balmy, reminding those of us who have lived east of the Rocky Mountains of a spring day. This in marked contrast to the report which comes to us from the Middle States that there is from one to three feet of snow on the ground and zero weather.

OSCAR BINDER VICTIM OF 'FLU' Oscar Binder, pioneer baker of this city, aged 37 years and a native of Germany, died at his home at the Point yesterday, a victim of influenza. The funeral will be held from Curry's undertaking parlors at 2 p. m. Saturday. Interment in Sunset View cemetery.

U. S. BOYS WANT TO COME HOME PARIS, Dec. 25.—The distribution among officers of questionnaires asking whether they desire to remain in the army or return to civil life has resulted in thousands of them wondering what they will do when there is no longer use for them in the army.

CAROL SINGERS REVIVE PRETTY CUSTOM HERE CHRISTMAS EVE

Carol singers from the Epworth League of the Wesley Methodist Episcopal church revived a pretty custom of long ago in Richmond Christmas Eve. They visited residential districts of the city and sang their carols, announcing the anniversary of the birth of the Saviour. There were three automobiles carrying the party and several hours were spent at their self-appointed task, much to the gratification of those who were favored with their sweet music.

The following gentlemen and ladies comprised the party: The Misses Mary Smith, Reetha Dreyer, Helen Kinney, Marjorie Davidson, Enid Claver, Valeria Davidson, Bernice Frymire; Mrs. Foster Conn; Messrs. Glenn Greer, Wesley Southcock, Joe Gardner, Phillip Frymire and Rev. C. E. Irons.

HOOVER TELLS OF HELP NEEDED BY BELGIAN PEOPLE

WASHINGTON, Dec. 26.—Physical damage wrought in Belgium by the German armies is described in a cablegram received by the food administration from Herbert Hoover, who with William B. Poland, European director of the commission for relief in Belgium, has just completed a survey of conditions in the liberated country.

On the basis of Mr. Hoover's report, the food administration announced today that hereafter 150,000 tons of supplies, including clothing, would be shipped to Belgium each month. As this program will require 160,000 deadweight tons of shipping in addition to the 340,000 tons now on charter to the relief commission, application for additional tonnage has been made to the Shipping Board.

The cost of the entire relief program will be borne by the Belgian and French governments from loans made by the American government. France's part of the expense will be for supplying the people of northern France, as well as several hundred thousand refugees who were forced from that section into Belgium during the retreat of the German forces.

Mr. Hoover's report on his survey of Belgium says: "Prior to the armistice the German army had completely destroyed a zone of railroads and canals some twenty miles wide, extending entirely across Belgium. After the armistice there was comparatively little destruction of transportation facilities across this zone, of destruction of the problem of distribution of food and of reconstruction can be undertaken with much less difficulty than at present."

"Investigation proves that industrial and residential destruction in Belgium varies greatly in different localities and with different industries. For instance out of the fifty steel furnaces in Belgium, 35 or 40 have been deliberately destroyed by the Germans in their determination to end the Belgian steel industry."

"There are some 300,000 French refugees in Belgium, driven out of northern France by the Germans."

ALLIED NATIONS AGREE ON BASIC PEACE PRINCIPLES, IS WILSON'S CHRISTMAS MESSAGE

AMERICAN HEADQUARTERS IN THE FIELD CHAUMONT, Dec. 26.—There is complete harmony between the United States and the Allies upon the basic principles that will form the foundation of the peace which will write finish to the greatest war in history and, it is hoped, to all wars.

Such, in substance, was the message of Christmas cheer which Woodrow Wilson, commander-in-chief of the American army, conveyed to 10,000 American troops gathered about him in a vast wheat field near Humes, some twenty miles from here, in his speech yesterday.

The President said that the leading allied statesmen so far have voiced the same views upon the peace conditions as himself. In another speech at the City Hall of Chaumont, the President paid an eloquent tribute to France and to the friendship between the republic and the United States, a "friendship as he put it, which is not only tentative, but one based upon a common union of principle."

This address Mr. Wilson concluded (Concluded on Page Four.)

In another speech at the City Hall of Chaumont, the President paid an eloquent tribute to France and to the friendship between the republic and the United States, a "friendship as he put it, which is not only tentative, but one based upon a common union of principle."

This address Mr. Wilson concluded (Concluded on Page Four.)

COUNTY MUST PAY COST OF WAR WAGED ON SQUIRRELS

MARTINEZ, Dec. 26.—Contra Costa County has lost the opening argument in the suit of the State Board of Health against the county, to compel payment of some \$900 alleged to have been spent by the board in the county for the prevention of contagious diseases.

Under an act of 1913 the State legislature appropriated the sum of \$100,000 to be used by the health board in its fight against communicable and contagious diseases, which was made to include the eradication of the squirrel and rat pests, with the proviso that the county supervisors should reimburse the state for money expended in the county. This would keep the fund appropriated a perpetual one.

The Contra Costa board refused to pay the claim and the state board brought suit. A demurrer

was filed which held that under Article 13, Section 11 of the constitution the legislature cannot delegate to any specific person or commission power to create a debt to be paid out of the county treasury. Judge Latimer holds that the statute passed by the legislature does not violate the section of the constitution referred to because it is the function of the state, and not the county, to carry on the work of combating and controlling contagious diseases and that the state had a right to take county funds for this purpose because these funds are public moneys and do not belong exclusively to the county.

While the demurrer is overruled it is probable that the case will be tried upon the facts involved as it is believed that the supervisors intend to resist the efforts of the State Board to collect the money.

SUIT BROUGHT FOR DEATH OF HER HUSBAND

The wife of the late Jesse H. Merrill, of Oakland has brought suit in the superior court at Martinez, on behalf of herself and two minor children for the sum of \$50,000 against Jesse L. Healy of Napa County for the killing of her husband.

Merrill was a watchman at the tank farm of the Standard Oil Company near San Pablo and while in the act of crossing the state highway from his lodging house to the tanks in pursuance of his duty was run down and killed by Healy's automobile some two weeks ago. Mr. Healy brought the man to this city, but he died before reaching the Craven hospital, where he was taken for treatment.

They have been cared for out of the meager stores of the Belgians and by the commission for relief in Belgium. Everything is being done that is humanly possible, but in the present state of demoralization, with moving armies, and the necessity of using every truck and horse with which to feed the population, their plight is heartbreaking.

SOCIAL SERVICE BUREAU WILL MEET THIS EVENING The Social Service Bureau will hold its regular meeting this evening at the court rooms of Judge Roth in the Pillow building. All members of the bureau are requested to be present.

BIG WELCOME IS ACCORDED EXECUTIVE BY ROYALTY IN LONDON

LONDON, Dec. 26.—President Wilson arrived in London at 2:30 o'clock this afternoon and was given a tumultuous greeting. Airplanes accompanied the royal train on which President and Mrs. Wilson traveled, all the way from Dover, to Charing Cross station.

A salute of forty-one guns was fired from the tower of London and Hyde Park, where President Wilson accompanied by King George, left the forecourt of the station.

King George and Queen Mary met Mr. and Mrs. Wilson at the station.

LONDON, Dec. 26.—President and Mrs. Wilson were in Buckingham Palace this afternoon after a journey from Calais to London during which they were accorded all the honors ever given royalty. Never has a royal progress, except those of great national ceremonials, excited such interest here as the first state visit of an American President.

The drive of the short procession from the station to the palace was made through streets lined with the guards regiments in khaki. Fresh flags hung overhead and covered the buildings, while windows, balconies, sidewalks and open spaces were filled with people, many of whom wore the American colors.

It was a brief spectacle. First came the sovereign's escort of troops from the household cavalry, with helmets and steel cuirasses. Then came the carriages with King George and President Wilson and Queen Mary. Mrs. Wilson and Princess Mary. These were followed by three others, which passed almost unnoticed as eyes were on Mr. and Mrs. Wilson and the royal family.

SERGEANT CALFEE IS ORDERED TO RETURN

Sergeant Ross L. Calfee, now with the United States expeditionary forces in Germany sent his mother a Christmas gift letter and some German "shinplasters" or paper money. He says he is well and happy and the division to which he belongs has been ordered home. He expects to be back in the United States about June or July.

Did You Get a Share

of the dividend that was recently declared by this bank, in the form of a semi-annual interest? If you didn't, there is no one to blame but yourself. If you had a savings account in this bank you would have shared in this distribution. It cost the beneficiaries nothing—it was like money found.

Make a resolve right now that you will share in the distribution next year. Just come to the bank and start a savings account—start with a dollar if you wish—then add to it from time to time and watch it grow under our system of 4 per cent interest paid semi-annually. DO IT NOW.

BEWARE OF INFLUENZA

ALTHOUGH Richmond at the present time is not suffering seriously from a return of the influenza, a great many cases of the disease are reported to the health authorities from the upper end of the county and around Martinez. That the disease is still with us is apparent. Engineer H. D. Chapman, one of the prominent members of the local Red Cross chapter, reported to the council last Monday night that Craven hospital is crowded with influenza patients and it is stated that several deaths are taking place each day from the epidemic in Martinez and other towns of the county.

With this condition all about us it behooves the people here to exercise extreme caution in fighting shy of the contagion. Watch what may appear to be ordinary colds carefully and guard the health of each member of the family, particularly the younger ones, with the utmost jealousy. Often influenza appears with extreme backache, with no signs of a cold in the head. Another favorite form of attack is plurisy—sharp pains under the shoulder blades and through the chest. There are a dozen or more methods of attack other than the symptoms of a bad cold and it is well to consult a physician whenever illness appears, no matter if it appears to be slight.

And stay at home as much as possible. Avoid mixing with crowds. Dr. Blake says this is the best possible way to avoid it. Go about your business in your home town, but refrain as much as possible from going elsewhere. It is best to be on the safe side.

Oleomargarine would be a life-saver against the outrageously high price of regular butter, as is claimed by the sellers of that product, if the butter manufacturing establishments and the oleomargarine factories did not belong to the same syndicate. Persons who have heard Francis Heney speak about his experiences when he was told by President Wilson to investigate the beef trust will readily understand that this is true. Not only does the beef trust own all the dairies, but they manipulate the fruit and vegetable packing business. Their ramifications are so wide and so thoroughly entrenched are they, that everything you eat and drink enriches their bank account, according to Mr. Heney, and we believe that what he says about it is true. President Wilson is of the same opinion, but nothing ever came from the rather startling report made by Mr. Heney.

One of Oakland's policemen has been arrested and charged with driving an automobile while intoxicated. Well, what of it? Up in our town nothing would be thought of an occurrence of that sort and we would not take the trouble to make an arrest. Those people down in Oakland are mighty finicky.

This latest Hobenzollern sympathy propaganda isn't boosted any by the weird tale of William's alleged suicide attempt. Probably he didn't try it, and if he did try we are all glad he made a failure. He must be saved so that he won't miss what he has coming to him.

PROTECTING THE WORKERS

As a branch of the Working Conditions Service of the Department of Labor, the Division of Safety Engineering will play an important part in adjusting conditions after the war, for standards for the protection of workers have been carefully worked out.

Accidents are obviously traceable to working conditions and compensation legislation has put economic pressure behind efforts to prevent industrial accidents by making it more economical to protect employees than to pay the costs of accidents.

There are now in nearly all the states of the Union safety codes and agencies charged with the establishment and maintenance of industrial safety. Supplementing government agencies, the National Safety Council and various technical societies have accomplished much. The policy of the Working Conditions Service is to avoid duplication of work and activities and, by acting as a co-ordinating agency, to work with the agencies already in the field in the national campaign for uniformity of safety standards, practice and equipment. In this connection the aim is toward the standardization of safety organizations and the continuous modification of standards to meet new conditions.

The Bureau of Standards will cooperate in the formulation of safety codes, and the National Safety Council has appointed a committee of five for consultation and advice. The codes that are to be worked out under the Division of Safety Engineering will be the result of experience and experimentation, consultation with technical organizations and conferences with employers and employees in order to ascertain necessary practical modifications. It is the intention of the Working Conditions Service to seek the co-operation of all agencies and organizations concerned, directly or indirectly, with working conditions, in order that all standards shall be the result of carefully considered judgments based on experience in all lines of production.

Grant Hamilton, Chief of the Working Conditions Service, says in discussing the division: "There are three ultimate tests—human effects, production and industrial organization. There is need for employers to understand that good business demands conservation and development of the workers whose mental and physical ability measures the quantity and quality of production. There is need for workers to understand that good health, skill, good management and care to prevent accidents mean to them increasing material well-being and greater opportunity for advancement."

According to the Homeless Children's Friend, a publication pertaining to the California Home Finding Society, there were 661 children properly provided for in family homes by this organization last year, at a cost of \$34,579. An average of \$5 a year, or less than \$5.00 a month for each child. Had these children been kept in institutions for one year the smallest per capita cost of each child would have been \$14 per month, \$168 a year or a total of \$11,000. Home life is better than institution life. Does it pay?

Some of our exchanges seem to be quite enthusiastic about it, but for the life of us we cannot see that lifting the ban on the short selling of cotton has materially brought down the price of clothing in the local market.

Sweden is short of copper and we are sorry for Sweden we really are—still, we hardly feel justified in worrying over the matter.

NOTICE TO TAXPAYERS

State and County Taxes For the Fiscal Year 1917-1918

NEW BOOKS RECEIVED DURING PAST WEEK AT PUBLIC LIBRARY

Aircraft and Submarines—Abbot. A story of the inventions, developments, and present day uses of war's greatest weapons, for the general reader.

The Development of Japan—Latourette. America's attitude toward Japan is of great importance. This brief historical survey of the development of the Japanese people and civilization from their beginnings is arranged for the use of the reader who wants to have sufficient knowledge about Japan to form a sane opinion.

Expert Interior Decorator—Kelley. A manual for the expert decorator and the beginner. Deals with styles of decoration suitable for public and private buildings, churches, halls, lodge rooms, with much about color and color combinations. The library also has "The Expert Calculator" by the same author.

The Golden Treasury of Magazine Verse—Brathwaite. A selection of poems gathered from American magazines, during 1905-1917. Many of the poems are for the first time reprinted here.

SAN FRANCISCO MAN GAINED 24 POUNDS

Fred Sanders Suffered Thirty Long Years—Spent Hundreds of Dollars

"When I began taking Tanlac I only weighed one hundred and thirty-six pounds," said Fred W. Sanders, while in the Owl Drug Store at 710 Market Street, San Francisco, recently, "and I now tip the beam at one hundred and sixty which gives me an actual gain of twenty-four pounds in two months time."

"Mr. Sanders is a boiler-maker by trade, which occupation he states he gave up on account of ill health. He is now employed by the Glidden Varnish Company and lives at 702 Vallejo Street. He has been a resident of San Francisco for forty years. In describing his trouble, which caused him so much suffering and loss of weight, Mr. Sanders said:

"I have suffered with my stomach thirty years or more. In fact, almost as far back as I can remember I have suffered from indigestion and constipation and these troubles have had me down and out many a time, especially during the past fifteen years. My stomach was so upset that nothing agreed with me, and at times I couldn't even retain water on my stomach. I was bloated nearly all the time by the gas which formed after my meals, and I simply suffered torture from the pains caused by it. I have tried about every diet a person could be put on. I could eat no fruits or meats and the very sight of eggs would upset my stomach. At one time I had a nervous breakdown, caused by these same troubles. I was laid up for six months at this time and spent over seven hundred dollars for treatment and medicines before I could get to work again. Since then I reckon I have spent twice that much more without getting more than a little passing relief. I finally had to give up my trade as boiler maker because the constant pounding and par affected me so I was afraid of another breakdown. I got so I couldn't sleep at night and fell off until I weighed only one hundred and thirty-six pounds."

"Seeing Tanlac advertised in the papers, and as it was a new one on me I decided to try it. Now just let me tell you, it has done me more good than all the other medicines I have taken in the past ten years put together. And eat, why, I have the best appetite I have had in years and my big gain in weight shows how well my food agrees with me. My food all seems to digest perfectly and I never feel an ache or a pain. I sleep like a log at night and get up in the mornings thoroughly rested and ready for a big day's work. Tanlac certainly is some medicine and you may just count on me as one of the biggest boosters on the coast. I only wish I could have had it thirty years ago, it would have saved me a world of misery and pain. I have been through all these years."

Tanlac is sold in Richmond by F. B. LaMoine; in Antioch by H. J. Shuman; in Crockett by J. Civettini; in Pittsburg by Regal Pharmacy; in Antioch by Shuman Drug Store; and in Pinole by E. K. and M. Danley.

Human Side of Animals—Dixon. A book of interest for all lovers of animals. Written by a well-known naturalist who tells of the animals that practice camouflage, build, mine, and play much as humans do.

Lincoln in Illinois—Roberts. A new Lincoln book well worth reading. The author as a little girl lived in Springfield, Ill., and all of the other folks that she knew had known Lincoln. She gives us a touching picture of the everyday Lincoln as he lived in the memory of his Illinois neighbors and friends.

Out There—Manners. A three part play portraying the patriotic spirit of England during the first months of the war.

The Rural Teacher and His Work—Foght. All persons interested in rural community life as well as the teacher and the school director will find this a stimulating book. The rural teacher may become a community leader and through co-operation with other educational agencies and organizations may reach out to all parts of the community.

Standard Mechanical Examination on Locomotive Firing and Running—Wallace. For the ambitious and progressive fireman who desires to become an engineer. Gives the progressive examinations for the first, second and third years, as adopted by the Traveling Engineers' Association.

Stationary Department—Lehmann. Another of the department store series for the merchant or salesman who handles stationery and who desires to know something about the goods he works with. From this book he may learn quickly to know the different kinds of paper and how they are made and engraved, and about the leather and metal goods, novelties and stationery supplies usually handled in the stationery department.

OSCAR BENDER PASSES
Oscar Bender, pioneer barkeeper of the West Side, died at a local hospital this morning and the remains are at the Curry undertaking parlors where the body is being prepared for the funeral and interment. The funeral will in all likelihood, be held on Monday from the parlors.

SENDS CABLE GREETINGS FOR XMAS FROM FRANCE

Melvin Clements, with General Pershing's expeditionary forces in France, sent Christmas greetings to his friends, in this city by cable from Bordeaux, where he is now stationed with his unit. He is well and happy and along with the other United States soldiers over there, hopes to be sent back home to be mustered out in a short time.

SPENT OVER \$3500 WITH DOCTORS and got no relief. So declared Mr. R. Lewis, proprietor of the large jewelry store at Eleventh and Washington Sts., in the center of Oakland. After drinking the Fong Wan Herb Tea he was completely cured.

His Unsolicited Testimonial. For several years I was troubled with Nervous Attacks. I visited the most prominent physicians in both OAKLAND and SAN FRANCISCO without obtaining permanent results. Finally, when an OPERATION ON MY SPINE had been suggested, I quit and began drinking the FONG WAN CHINESE HERBS. After seven weeks I felt entirely well. This was in September, 1916, and up to the present time, there has been no recurrence of the attacks.

NINE HOURS IN RECONSTRUCTION WATER TEACHER STILL LIVES

PETALUMA, Dec. 26.—Miss Lucille Armstroff of this city, who last Sunday was saved from death by Filippino Joe, who worked over her after she had been taken from the waters near the outlet of the Russian River near Guerneville, apparently dead, arrived here from Jenner last night to spend Christmas with her parents. The young woman does not show the effects of the experience and has recovered from the shock of being exposed for hours to the mercy of the icy waves.

"It was a dreadful thing and I am so grateful to everybody who helped to rescue me," said the young teacher last night after her arrival here.

"I had dismissed school Friday and Saturday went out to take some pictures of the beach. A large wave swept me off the rock on which I was seated. I tried to get back to the shore and attempted to swim but the water was too strong. I observed a big rock near by and clung to it until I became exhausted and released my hold. That was the last I remember until I awoke and found that I had been saved, after an unusual experience."

For over nine hours the young woman had been in the waters and tossed back and forth and battered by the waves. She was covered with sand when found and her clothing torn from her body. The searchers who had been looking for her for hours built a fire and she was placed near it and wrapped in heavy coats. Attempts were made to resuscitate her. She was given up when old Filippino Joe said he felt her heart beating.

ALLIED NATIONS AGREE BASIC PEACE PRINCIPLES

(Continued From Page One.)

with a shout of "Vive la France!" in which his hearers joined with thunderous volume and with an enthusiasm and sincerity that brought tears of the deepest emotion to hundreds.

The President was the guest of the "Yankee" Division, which has been in France longer than any other fighting unit of the American army. He held a review of thousands of American veterans—the boys who turned the tide in the great war. He was visibly moved and highly pleased with the appearance of the doughboys.

GUS EDWARDS' REVUE LEADING FEATURE AT ORPHEUM NEXT WEEK

Once every year Gus Edwards, internationally famous American composer and song writer, and one of the big show men of America, as well, constructs a "Song Revue." Always a wonderful, colorful affair it has made many a present musical star famous, and every year he takes new stars, chosen from the best musicians or singers he comes in contact with, and offers a new revue; each one just a little more novel than the one before it.

By strange coincidence, his latest song revue will be the feature of the New Year's bill at the Oakland Orpheum. He called it "The Fountain of Youth," wonderful harmonies will offer wonderful new airs in it, in a wonderful setting; Olga Cook, the famous young American prima donna, Helen Coyne, fair dancer; Bruce Morgan and Marguerite Diana, and other nationally known vaudeville stars are to be in it, as well as Mario Villano and his Neapolitans.

There will be a splendid big program to go with this especially notable feature. "Somewhere in France," John Barclay's sensational depiction of the battle front, and one of the quaintest bits of character work on the stage this season, will be a feature. Joe Brown, laugh maker supreme, who can truthfully boast that his act is unlike any other; the Krazy Kiddies children of the famous theatrical family who starred in the Black Crook, the Ziegfeld Follies of long ago, are coming. Wallace Galvin, the celebrated magician and comedian, with his laugh provoking "odd trick" and Jack and Kitty de Marco are other features.

This week "For Pity's Sake" the screamingly funny travesty of the Tank Town Melodrama with Thomas Duray as the hick manager, Countess de Leonard's "Futuristic Revue," the clever De Wolfe girls,

Olive Briscoe and Al Rush, and other clever bits are attracting record crowds to the Orpheum. The box office is making many reservations for the two performances on New Year's eve, and for the week after next, when Hobart Bosworth (himself) appears in Jack London's "The Sea Wolf" at the Orpheum. Lenhardt's where the Broadway box office is, is also seeing a lively rush.

High Boiling Points Give POWER & MILEAGE

Up the hill, around the turn, on and on, making the grade with steady, irresistible power—that is the way your car climbs when it is fed on Red Crown gasoline with its full series of high boiling points.

Red Crown, the Gasoline of Quality, is a straight-distilled, all-refinery fuel, having the full and unbroken chain of boiling points necessary for steady, dependable power. Red Crown is full-powered, high-quality—every drop! Be sure it's Red Crown before you fill. Look for the Red Crown sign.

MISS MOUNT IS CHRISTMAS BRIDE

One of the surprises of the Yuletide season was the marriage on Christmas day of Miss Marjorie E. Mount, popular young lady of this city to Carl W. F. Jochims, a cadet at the Angel Island training school. The young people were married yesterday in Oakland.

Miss Mount was practically raised in Richmond and was educated in the local schools. Her numerous friends in this city are congratulating her over her happy marriage. Mr. and Mrs. Jochims have not advised their friends as to their plans for the future.

DONT SLOW UP Advertising Now!

Never has there been a time when the public has looked more keenly for **MERCHANDISING NEWS** than now.

Never has there been a time more auspicious for the enterprising tradesman to secure **HIS FULL SHARE OF TRADE** than now.

People must continue to eat, to wear and to use.

The tendency is to cut out luxuries, and luxuries are only a relatively small proportion of your business. For every luxury cut out you have a chance to increase your movement of staples.

How short-sighted is the policy of reducing advertising expense to "save money." You will only lose trade. You will only lose prestige.

Advertise to increase sales and make more money; don't cut it out to save money.

Study your advertising as you never did before—do it wisely and well.

Be prosperous and let the people know that you are prosperous.

Success was **NEVER** achieved by stopping advertising or by wearing old clothes and talking pessimism.

The **RECORD-HERALD** is more widely read than any newspaper in Richmond and offers the best advantages to the advertising public.

Be Wise—and Advertise
